

NEW E570 Series 2

Smart Commercial Electricity Meters

Landis+Gyr⁺
manage energy better

E570 Series 2 Benefits at a glance

 Modern LTE communication (2G/4G)

Versatile transformer connectivity (CT/VT)
for Medium and Low voltage

 Proven G3-PLC communication

Advanced power quality functionality

Fast and easy system integration

Improved anti-tampering and
impermeability (IP54)

High level security (access and message)

Wide voltage power supply and
50/60Hz frequency support

Low total cost of ownership (high quality,
reliability and longevity)

Compliant to latest safety standards
and practices

No Power Read (NPR) and replaceable
battery

Environmentally friendly
